ANTI-BRIBERY POLICY

YPF ENERGÍA ELÉCTRICA S.A. (YPF LUZ) commits to carrying out all of its activities with integrity and transparency, and it has a zero-tolerance policy for offering or accepting bribes or illegal commissions. This policy applies to all personnel, controlled organizations, and relevant business partners when dealing with public or private sector organizations, whether for profit or not.

For such purpose, YPF LUZ has an anti-bribery management system in place and undertakes the following commitments:

- Prohibit any act related to bribery.
- Designate an anti-bribery compliance officer with authority and independence to oversee the implementation of bribery risk controls.
- Follow and enforce the current anti-bribery policy, applicable legal anti-bribery requirements, and other anti-bribery management system requirements or those adopted by the organization.
- Establish anti-bribery goals in accordance with this policy.
- Communicate:
  - the current policy within the organization and to related third parties and relevant business partners;
  - to all employees the framework of disciplinary sanctions in the event of involvement in any bribery-related acts that may jeopardize compliance with this policy, which may include termination of employment;
  - to controlled organizations, related third parties, and business partners that failure to comply with this policy may result in contract suspension or termination;
- Make the policy available to all stakeholders.
- Implement reliable mechanisms for reporting concerns and/or suspicions about potential acts of bribery without fear of retaliation.
- Actively encourage employees and other stakeholders to report any concerns they may have.
- Continuously improve the suitability, adequacy, and effectiveness of the anti-bribery management system.
